- **Turkish:** Native
- **English:** Advanced

Experience

October 2020 – Present

Istanbul, Turkey

Software Engineer - Intertech Information Technology and Marketing Inc.

I develop enterprise Asp.net web forms applications and React.js applications with Micro Frontends architecture.

October 2019 – March 2020

Isparta, Turkey

Part Time Software Developer - Suleyman Demirel University SKS.

I worked as a part time student at Suleyman Demirel University. As a 3 person team, we have created a community forum [website](#) for the student social communities in Suleyman Demirel University.

Projects

My open source projects on github.

- <https://github.com/artuncolak/Sudoku-Solver>
- <https://github.com/artuncolak/SnakeyGame>
- <https://github.com/artuncolak/RainEffect>
- <https://github.com/artuncolak/GpaCalculator>
- <https://github.com/artuncolak/Spring-Boot-JWT-Authentication>

Achivements

- I participated as a team in the Turkish Programming Contest held within Inzva in the summer of 2019. We ranked 20th out of 60 teams.
- As of 2019, I am the lead organizer of GDG (Google Developers Group) Isparta. As a team, we organized DevFest on 21 December 2019, which is a big software development event.

Hobbies

- Playing guitar
- Playing video Games
- Scuba Diving
- Writing blog posts
